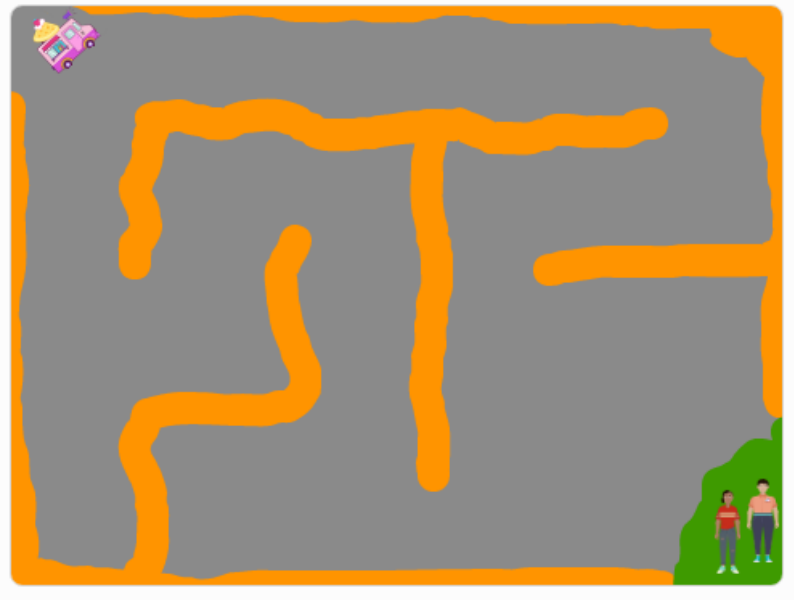
Lava maze!

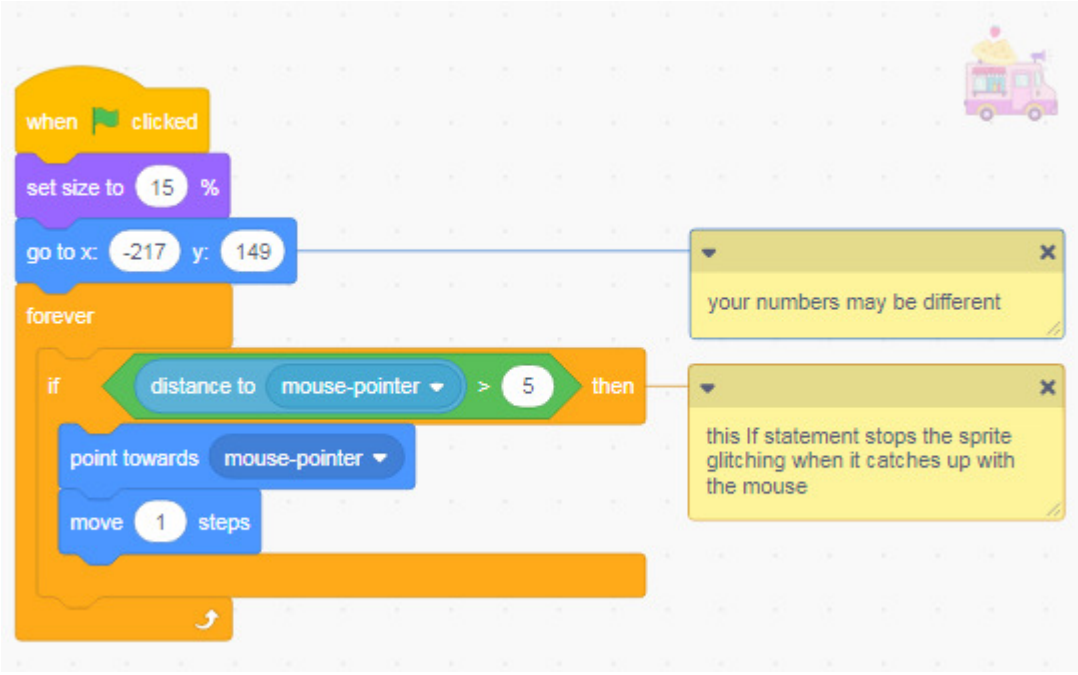


Finished project: https://scratch.mit.edu/projects/965952640/

Based on instructions: https://projects.raspberrypi.org/en/projects/boat-race/

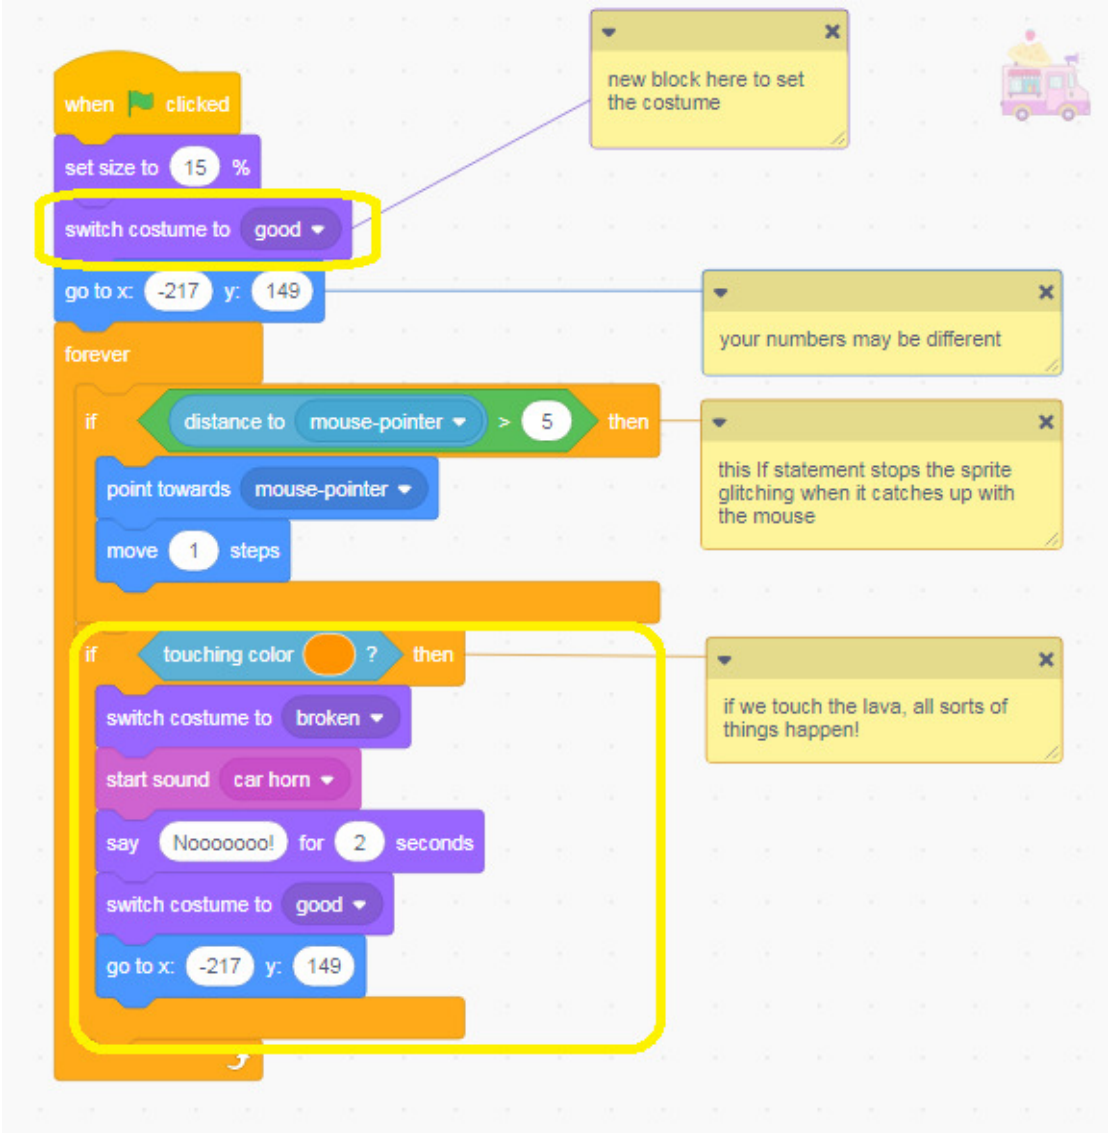
Step 1: Move your van

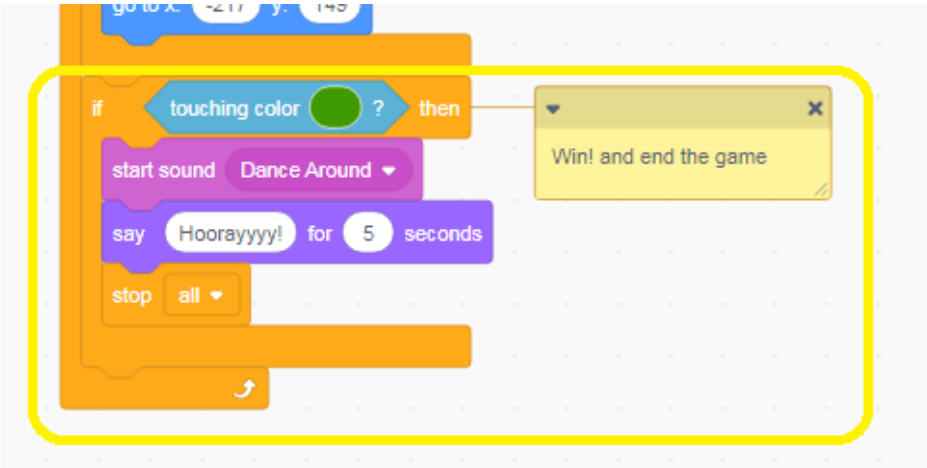
Keep testing and saving your project as you go along.



Step 2: Crash!

Add a 'crashed' costume to your sprite, then add the blocks below to use it in your game:



Step 3: Win!


Now you need similar blocks to the ones used for crashing, but these are for winning the game! This code goes inside the same Forever loop.
